

Vonco Medical Installs Top of the Line Biodex Equipment and HUR Strength Equipment at Park Manor of Bee Cave Skilled Nursing & Rehabilitation

Vonco Medical was proud to attend the new Skilled Nursing grand opening at Park Manor Bee Cave

Carrollton, TX -- ([ReleaseWire](#)) -- 09/16/2014 -- Vonco Medical was proud to attend the new Skilled Nursing grand opening at Park Manor Bee Cave. This Long Term Care, Rehabilitation, Skilled Nursing, & Specialty Care facility is equipped with top of the line Rehabilitation equipment. The gym offers the Biodex balance testing machine, which offers fall risk testing for the residents, as well as training. They also offer Biodex gait training/analysis treadmill with the Biodex unweighing machine. This allows the patient to unload body weight and work on gait training with the Biodex gait trainer treadmill, which has biofeedback that tells the therapist their stride and step length.

Along with the therapy gym and all the top of the line Biodex equipment, Park Manor Bee Caves also has invested in the HUR strength equipment line. This air resistance weight equipment allows the patients to build strength using the HUR weight equipment in a safe setting, without weight stacks; making it almost impossible to injure the patient. They offer multiple pieces of equipment from functional pulleys, leg exercises, to upper body strengthening.
